

# Real Solutions Producing Effective Results...

## What We Do.

Action Technologies provides sustained engineering and technical support to U.S. government and industry customers providing cost-effective rates.

## Software Engineering Solutions

### **Our software application development services include:**

- Incorporating some of the most wide-ranging, stable and standardized tools in the market, including Visual Basic, C/C++, Oracle, .NET, Web, Office, BackOffice (SQL Server, NT/2000, Exchange)
- Software Requirements, Planning, Design, Development and Integration
- Configuration Management
- Data Collection, Reduction, and Analysis Systems
- Database Development

We provide cross programming for system engineering analysis and different technical architectures. Action Technologies provides developmental test and evaluation (DT&E) and operational test and evaluation (OT&E) support.

At Action Technologies, our engineering professionals are experienced in developing test procedures, testing software modifications, and generating test reports, tracking defects, and performing configuration management.
